November-December 2013

Message from the CEO

The college is entering a new year 2014, which is around the corner and knocking the door. Sanjari continues to develop in leaps and bounds, and I would like to thank all the staff for helping to make our success possible. We have quickly passed the year 2013. However, I feel confident that we are moving in the right direction. Each and every semester, we have been enhancing our teaching and learning experience. The academic results are getting better and better.

The college has been truly focusing on becoming one of the quality education providers that transforms the learning experience to learn, live and work. As a small institute, from our formation the personal touch has always been adding value to our students, staff, owner and other organisations.

This year we have managed to double the number of students, comparing to last year and have a healthy portfolio of prospective students wishing to join with us. We have also addressed several strategic moves. The college application to Quality Assurance Agency (QAA) has been accepted and they will pay review visit on week commencing 25 November 2013. Most of the policies and procedure have been reviewed addressing the QAA quality codes.

The college has welcomed the new Principal Mr. Michael Scott . SIC has invested huge amount of money for expanding IT infrastructure and library facilities and added over 3,000 new books!

There is change in college operations, for enhancing the learning experience the students will be actively participating in board of governance meeting, academic meeting and admin meeting as a part of committee members from beginning of next year. The College Student Union officials have been elected, also the student representatives from each class.

The External Examiner visits by the awarding organisations have given as another milestone in our success story. The UK Home Office Inspectors left the campus with smiles on their face after the recent unannounced compliance visit.

So, what do you think? As CEO of the college, I am always very interested to know your experiences and I invite you to provide me with your own experiences. I invite you to speak to me directly or simply e-mail at: zahid@sicedu.org.uk

I hope further developments in 2014 and continue driving our success through our dedication to quality and excellence. Once again, I would like to personally thank all staff, students and other partners for your efforts in 2013 and wish you a very happy and prosperous new year 2014!

Warmest Regards,

Zahid Chowdhury
CEO

Message from the Principal

Welcome to the second newsletter of the college. This newsletter is intended to keep you up to date with changes in the college and provide information that might be useful to your academic studies.

On behalf of the staff, I would like to thank you for trusting us as your higher education provider.

It is surprising how quickly the time goes by. As always, October came and went in a blur, and we leapt right into the month of November! This is a great time and opportunity to have a conversation with you - students, teachers and other partners to listen and ask questions. We are looking forward to getting to know and work with all of you to ensure that each and every student in this college is successful.

Our programmes continues to thrive on the success, it shows us our students are headed in the right direction. The academic and non academic staff recognised the important contributions the student makes toward a success in the College. There is no question success at the college continued because of important contribution from students, management and academic and non academic staff.

Through regular classroom visits, I see what amazing creativity our teachers use in order to address all of our students' various learning needs. Many works are also shared with me in my office where students proudly highlight that which they have accomplished.

Sanjari has a strong tradition of supportive, hard-working staff. Throughout the year they have the opportunity to develop that relationship with students and other organisations in a wide variety of ways.

Again, I am pleased that I had a great change to contribute in the transformation of the college to achieve the long term objectives. I can assure you that I will do my level best to help you to have a memorable experience in academic, social and intellectual growth.

There is every reason to celebrate, not only because of the celebration time of the year.

Merry Christmas and wising you a very happy new year!!!

Thank you

Michael Scott
Principal
